- A rich, earthy blend that includes many natural & organic ingredients
- Special water-saving formula

MASTER NURSERY<sup>®</sup> ORGANIC POTTING SOIL

# MASTER NURSERY BUMPER CROP ORGANIC GARDENER'S GOLD POTTING SOIL

LDPE  
recyclable  
plastic

**BUMPER CROP® POTTING SOIL** is the new name for **GARDENER'S GOLD**, Master Nursery® Garden Centers' long popular potting soil. It is the same great product with all the same premium organic ingredients, including shellfish and compost. What could be more natural? We have used sphagnum peat moss and perlite to provide a good balance of moisture retention and airspace. And we include lime as a pH adjuster. Finally, it is unconditionally guaranteed to perform as intended.

#### PLANTING INDOOR OR OUTDOOR CONTAINERS

When potting plants, be sure to cover the drain hole in the bottom of the container with rocks, large bark or a piece of broken clay pottery. This allows water to drain away from the plant roots so they won't rot away. Place enough **Bumper Crop® Potting Soil** in the container so that the plant will sit at the proper height near the top (within 1 or 2 inches) of the container. Fill and compress more soil into within 1 inch of the top. Be sure not to pack the soil too much, just firm enough to hold the plant in place. Water well. Be sure to use the Master Nursery **Bumper Crop®** line of plant foods to get your plant off to a great start.

#### HANGING BASKETS & WINDOW BOXES

**Bumper Crop® Potting Soil** is designed for planting hanging baskets and window boxes. With window boxes, make sure to cover the drain holes with bark or pot shards to allow the water to drain away from the plant's roots. If you are combining different plants, make sure they are good "companions" (i.e., they like similar amounts of sun and moisture conditions).

#### HOW MUCH POTTING SOIL DO YOU NEED? One 1 cubic foot bag will plant:

GALLON CONTAINERS	WINDOW BOXES
2 - 3 1 gallon containers	2 24" window boxes
1 - 2 2 gallon containers	1½ 36" window boxes
1 5 gallon container	1 48" window box

**HANGING BASKETS: 4 - 5 12" to 18" baskets**

These are approximations as the actual amount of potting soil needed will depend on the size of your plant's rootball.

#### SPECIAL CARE

**Bumper Crop® Potting Soil** contains ingredients to help your new plants get off to a great start. However, due to limited space for root growth in containers, plants will require more frequent fertilization and watering than plants grown in open soil. Check plants frequently for watering needs. Follow MASTER NURSERY plant food directions for fertilizing plants growing in containers. Due to the wide range of plants available for container planting and their various growing requirements, always consult your MASTER NURSERY Professional before starting your planting project.

#### MASTER NURSERY SOIL IMPROVEMENT PRODUCTS

Native soils in different regions have varying needs in order for them to be fully productive. Your MASTER NURSERY dealer has a complete line of products that fill those needs. All have been tested and improved under the knowledgeable direction of independent nursery professionals.

#### ASK YOUR DEALER ABOUT THESE PERFORMANCE GUARANTEED PRODUCTS CREATED EXCLUSIVELY FOR MASTER NURSERY GARDEN CENTERS:

##### BUMPER CROP® SOIL BUILDER

A premium soil builder made from only the finest all-natural organic, composted ingredients. A versatile blend excellent for a wide variety of garden applications.

##### BUMPER CROP® GROWER'S MIX

A blend of premium organic ingredients including lobster & crab shell and composted manure. What could be more natural? We add peat moss and perlite to provide a good balance of moisture retention and airspace and lime as a pH adjuster.

##### OMRI LISTED FOR ORGANIC USE

This product meets the organic production standards of the Organic Materials Review Institute (OMRI) and is OMRI listed for organic production.

##### UNCONDITIONAL GUARANTEE OF SATISFACTION

This Master Nursery product is guaranteed to perform as outlined on this container to the complete satisfaction of the purchaser or a full refund of the purchase price will be made. Refund will be made upon receipt of this warranty and a register receipt showing proof of purchase at participating MASTER NURSERY GARDEN CENTERS or at the office of the Master Nursery Garden Center, Inc., 190 South Orchard Ave., Suite B230, Vacaville, CA 95688 info@masternursery.com
